Tobacco Stocks Report as of October 1, 1962

U. S. DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

Washington, D. C.
November 23, 1962

CURRENT SERIAL RECORDS

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced in the Piedmont sections of Virginia and North Carolina.
Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.
Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.
Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.
Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.
Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

CLASS 3, AIR-CURED TYPES

LIGHT AIR-CURED (CLASS 3a)

Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.
Type 32: Southern Maryland; produced in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

DARK AIR-CURED (CLASS 3b)

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.
Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.
Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.
Type 42-44: Ohio filler; produced in the Miami Valley section of Ohio and extending into Indiana.
Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico.

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.
Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.
Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.
Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 72: Louisiana Perique.
Type 73: All domestic types of tobacco not otherwise classified.
Type 77: Domestic Aromatic.

FOREIGN TYPES

Type 81: Cuba.
Type 82: Indonesia.
Type 83: Philippine Islands.
Type 84: Brazil.
Type 85: Colombia.
Type 86: Dominican Republic.
Type 87: Paraguay.
Type 88: All foreign-grown cigar-leaf not otherwise classified.
Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total inventory of leaf tobacco slightly higher than a year ago

Leaf tobacco inventories in the United States and Puerto Rico totaled 4,605 million pounds (farm-sales-weight) as of October 1, 1962, on the basis of the quarterly stocks reports of dealers and manufacturers. This is an increase of 68 million pounds compared with a year earlier (4,537 million). Tobacco growers marketed around 940 million pounds during the third quarter (July-September, 1962), consisting mostly of flue-cured but including some Maryland and cigar lear. During the corresponding period last year 965 million pounds were marketed by growers.

The marketing year for all kinds of tobacco except flue-cured and cigar wrapper is on an October-September basis (table 3). The indicated total disappearance (exports plus domestic consumption) during the 1961-62 marketing year for all U. S. grown types combined for their respective periods was 2,080 million pounds, compared with 2,057 million during the previous year. Indicated domestic consumption of U. S. grown tobacco was 1,490 million pounds, the same as for the previous year, and the highest since 1953. In addition to the U.S. grown tobacco, approximately 171 million pounds (unstemmed equivalent) of imported tobacco was used by domestic manufacturers during the past year (the same as for the year before). In turn, the U. S. exported 590 million pounds during the 1962 marketing year (567 million during previous year).

Stocks as of October 1, 1962, included 558 million pounds (farm-sales-weight) of leaf tobacco under Government loans (665 million pounds of October 1, 1961). These loan stocks were divided as follows: Flue-cured, 446 million pounds; burley, 33 million; Maryland, 7.1 million; fire-cured, 31.2 million; dark air-cured, 15.8 million; and cigar-leaf, 24.0 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stock-reporting purposes.

Flue-cured, Burley, and Maryland stocks show increases

Stocks of flue-cured tobacco on October 1, 1962, were 2,587 million pounds compared with 2,584 million reported on hand a year ago. Marketing of the 1962 crop, currently estimated at 1,372 million pounds, began in July and sales by growers totaled 928 million pounds by the end of September. During the corresponding quarter last year 943 million pounds were sold.

Burley stocks of 1,137 million pounds represented an increase of 10 million pounds compared with the previous October 1 (1,127 million). Based on October 1 stocks, total disappearance of burley tobacco during the marketing year just ended (October 1961-September 1962) amounted to 570 million pounds compared with 549 million during the 1960-61 period. Indicated domestic consumption was 525 million pounds (up 18 million), and exports were 45 million (up 4 million).

Stocks of Maryland tobacco were 76.2 million pounds, an increase of 6.2 million from holdings on the previous October 1 (70.0 million). Sales of the 1961 crop on the auction markets were completed in July, 1962. Disappearance of Maryland leaf during the 1961-62 marketing year was 32.3 million pounds (calculated on the basis of sales), 3.2 million below the previous year. Domestic consumption amounted to 20.4 million pounds (23.6 million in 1960-61), and exports were 11.9 million (the same as in 1960-61).

Foreign-grown cigarette and smoking tobacco stocks (Turkish and other) were 269.3 million pounds--well above last October 1 (222.3 million).

DARK TOBACCO STOCKS

Fire-cured and dark air-cured stocks lower than on last October 1

Fire-cured tobacco stocks, reported as 109.2 million pounds, were lower than a year ago (113.7 million). All types were lower. Fire-cured stocks on October 1, 1962, were divided by types as follows: Virginia fire-cured 19.9 million, Eastern District Kentucky and Tennessee fire-cured 72.2 million, and Western District 17.2 million. Disappearance of fire-cured tobacco during the 1961-62 marketing year totaled 57.6 million pounds compared with 55.1 million during the previous year. Exports of 34.9 million pounds were 7.7 million pounds higher than during the previous marketing year. Domestic consumption was 22.7 million compared with 27.9 million for 1960-61.

Dark air-cured tobacco stocks on this October 1 were 60.3 million pounds, a decrease of 1.9 million pounds compared with holdings a year earlier (62.2 million). Stocks of One Sucker were lower, but those of Green River and sun-cured were higher. Inventories on this October 1 of One Sucker were 35.2 million pounds, Green River 20.0 million, and Virginia sun-cured 5.1 million. Disappearance of dark air-cured tobacco during the 1961-62 marketing year was 24.6 million pounds, 0.6 million above the figure for the previous year. Exports were 4.9 million pounds--about the same as for the year before, and domestic consumption was 19.7 million--up 0.7 million.

CIGAR LEAF STOCKS

Holdings of domestic cigar leaf up slightly from a year ago
Stocks of foreign-grown cigar leaf smaller

Cigar-leaf stocks of all domestic types including Puerto Rican totaled 293.7 million pounds (farm-sales-weight) on October 1, 1962--8.3 million above a year earlier (285.4 million). Stocks of foreign-grown cigar-leaf totaled 67.2 million pounds (unstemmed equivalent) compared with 69.0 million reported the previous October 1.

Overall stocks of the cigar-filler types of 184.7 million pounds were 9 million above those on the previous October 1 (175.7 million). The increase was accounted for by larger stocks of types 41 and 42-44. Pennsylvania Seedleaf stocks this October 1 were 122.9 million pounds, Ohio filler 20.2 million, and Puerto Rican filler 41.6 million. Disappearance of the filler types for the 1961-62 marketing year totaled 82.6 million pounds--somewhat higher than for the previous year (81.6 million). Domestic consumption was 82.5 million and exports 0.1 million pounds.

Cigar-binder stocks were 81.0 million pounds on October 1, 1962, slightly above a year earlier (80.0 million). Holdings of type 54 were the same, those of type 55 increased, and stocks of the Connecticut types were down from October 1 a year ago. Connecticut Valley Broadleaf stocks this October 1 were 18.8 million pounds, Connecticut Valley Havana Seed 11.0 million, Southern Wisconsin 23.3 million, and Northern Wisconsin 27.8 million. Disappearance of the cigar-binder types totaled 26.8 million pounds during the 1961-62 marketing year (27.6 million in 1960-61). Exports were 1.8 million pounds compared with 2.7 million a year earlier, and domestic consumption was 25.0 million, slightly above the previous year's figure.

Shade-grown cigar leaf stocks were 28.1 million pounds compared with 29.6 million a year ago. Stocks of both types were lower. Holdings of type 61 were 16.8 million, and of type 62, 11.2 million.

Stocks of Cuban leaf (Havana) were reported at 30.2 million pounds--a decrease of 9.7 million from a year ago. Holdings of Philippine Islands (Manila) stocks at 13.8 million pounds were about 0.2 million lower than on last October 1. Stocks of Sumatra and Java leaf were 1.7 million pounds (1.1 million a year ago). Stocks of Brazilian leaf were 2.0 million pounds, Colombian 8.2 million, Dominican Republic 4.4 million, Paraguay 1.6 million, and other foreign grown 5.3 million.

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 8.2 million pounds (reporting weight) compared with 7.3 million on the previous October 1. Of the total in "tobacco sheet" this October 1, 5.6 million pounds was for use in cigarettes and smoking tobacco, and 2.6 million for cigar binder including a small quantity for wrappers.

Table 1.--Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco 1/

	Type number	Yield realized from farm-sales-weight to: Unstemmed: Packed weight	Unstemmed: To the end of: One year in storage	Unstemmed: To the end of: Two years in storage	Stemmed	Factors to multiply by to convert: Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales-weight equivalent 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.
2/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for October 1, 1962 are as follows: Type 41, 104; Types 42-44, 111; Type 51, 104; Type 52, 104; Type 54, 104; Type 55, 104; Type 61, 109; Type 62, 111. October 1, 1962 figures subject to revision.
3/ For explanation of stocks included in this classification, see footnote 5 on page 15.
4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.
5/ Not reported separately prior to July 1, 1962.

* Revisions.

1962	7.7	-	2.3	10.0	4/ 7.1	3/17.1				

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carry-over stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ Subject to revision.

4/ November 1 estimate, U. S. Crop Reporting Board, SRS.

5/ Maryland production figure for the 1961 crop is based on sales.

Table 4.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, October 1, 1962 compared with October 1, 1961, and July 1, 1962

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.
2/ Subject to revision.
3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
4/ Includes Puerto Rican on the Island, Type 46.
5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.
6/ Types 84 through 87 not reported separately prior to July 1, 1962.

* Revisions.

Table 5.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 15.

6/ Types 84 through 87 not reported separately prior to July 1, 1962.

Table 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, October 1, 1962 compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, Quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1961, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 15.

5/ Types 84 through 87 not reported separately prior to July 1, 1962.

* Revisions.
